WHEAT BOOMS IN LIVERPOOL.

SENSATIONAL ADVANCE OF 4c PER BUSHEL YESTERDAY.

Influenced Chicago Prices to the Extent of a Net Gain of 1 1-4c-All the Other Markets Were Descrited.

Chicago, Nov. 25.-The sensational open ing advance at Liverpool was the all powerful influence in the wheat pit to-day, and under it wheat advanced 14c. Other markets were almost deserted, but steady, corn advancing 5c and eats 5c. Provisions showed but little change,

Wheat opened with a whoop to-day, the first transactions for May being all the way from 83%c to 84c, as compared with yesterday's closing price, of \$15,000c. There was a large stock of bull sentiment carried over from last night, and this was increased by the phenomenal advance in Liverpool. It came in with a jump of from 3d to 34d per cental, or the equivalent of about 4c per bushel over the price it closed at yesterday. The excitement cooled off very suddenly, however. In fact, but one or two traces were made at the highest opening figures. The jump at Liverpool was qualified by the statement that it was caused purely by speculative buying, and active liquidation soon started. Outside markets also sent selling orders up, and the price gradually declined to 80½c, although for the first hour a good deal of hervousness was manifested. Although the jump at Liverpool was the chief cause of the strength of the strength, it was not the only one, by any means. The Northwest receipts were only 45 cars, compared with 96 a week aso, and 734 on the corresponding day of the year before. The report circulated yes-terday, and which was responsible for a great deal of yesterday's strength, that Europe will require 17,000,000 bushels of wheat per month from America until July 1, was confirmed both by private cubie-grams and the Corn Trade News. But little can be said of the remainder of the session, and prices did not get far from the opening prices, 835c being the ruling price most of the time. At the close, May was

per bushel, which was the final result of the duy's business, seemed due in most part to the strength in wheat. Clearances were hearly 1,000,000 bushels, and shorts were fairly good buyers. May opened 4c high-er, at 27%c, sold between 27%c and 27%c. and closed steady at \$74,627%c.
Outs were firm, but without much advance. Trade was slow, but the strength in wheat and corn held prices steady, the market being absolutely without independ-ent feature. May started at 22%c, fluctu-ated between 225,8225c and 22%c, closing

But little interest was shown in provis tons. Opening prices were a shade lower, due to the weak live stock market, and a reasion, and prices advanced, closing steady with but little changes. May pork closed ower, at \$4.2094.2015; May ribs about 2150 higher, at \$4.00.

Estimated receipts to morrow: Wheat E cars; corn, 140 cars; cats, 140 cars; hogs,

DAIRYMEN ADJOURN.

Seventh Annual Convention of the Missouri Association Ended at Cameron.

Cameron, Mo., Nov. 25 .- (Special.) The seventh annual convention of the Missouri Dairymen's Association closes this afternoon. The attendance at the session last evening was large and the exercises proved very interesting. Two quarteties rendered music and received hearty applause. The subject of "The Most Valuable Dairy Appliances" was discussed by the following gentlemen: J. Y. Sawyer, of Chicago; R. S. Neff, of St. Joseph; E. W. Curtis, of Elgin, Ill., and G. H. Rabius, of Mayview, Mo. "Cheesemaking in Missouri" was pre-sented by C. S. Stevens, of Garden City, Mo. At the session this afternoon, J. R. Rippey, secretary of the Missouri state board of agriculture, spoke on "Dairy Leg-islation," followed by C. M. Connor, of Columbia, on "Feeding Dairy Cattle." A general discussion of the subject followed The first thing on the programme this aft ernoon was an address by Professor H. S. Waters, of Columbia, on "Building Up Dairy Herd." He was given careful attention, after which several short talks were made on the subject.

Houston, Fible & Co. have put a private wire in their office, thus putting them in constant communication with the entire outside investment world. Washington, Nov. 25.—The secretary of the treasury is considering the question of resuming the issue of gold certificates, which was suspended in 1836 when the gold reserve first fell below the \$100,000,000 point. The issue of these certificates was suspend-ed as a means of acquiring gold in the treasury. Theretofore it had been the custreasury. Theretofore it had been the cus-tem of the treasury to issue certificates on deposit of gold, but such gold deposited did not become part of the gold reserve. By suspending the issue of those certificates many holders of gold, rather than hold it, exchanged it for legal tenders and treasury notes, which under the religion of the denotes, which, under the ruling of the de-purtment being gold obligations practically subserved their purposes, but the treasury gradual increase of the gold reserve, such holders believe that there is no reason why the issue of gold certificates should not be

DOUBLE TRAIN WRECK.

Two Men Killed and Two Severely Injured in a New Jersey Ac-

cident. New York, Nov. 25.-Two men were killed and two others were severely injured in a double train wreck on the Pennsylvania. railway near New Brunswick, N. J., to day. The casualty involved the Washington express for this city, which at the moment was running at the rate of sixty miles an hour, and the marvel is that it did not result in the death and maiming of scores of passengers. This train and a freight train were running on parallel tracks, when the breaking of a truck on one of the freight cars threw it from its course and directly in the way of the express. The locomotive of the latter train struck the freight cars and wrecked eight of them. It was overturned and plunged down an embankment twelve feet high, falling upon and killing Engineer Joseph Meagan and Fireman H. W. Chichester. The mail car and the combination car were also carried over the embankment, and the first of the three sleepers stopped at the very brink of the incline. Mail Clerk Lambert, of Washington, was unconscious when taken from the wreck. He had several ribs broken and was otherwise severely burn burn will recover. Pobert nau several ribs broken and was otherwise severely hurt, but will recover. Pobert Tobabbon, of this city, a passenger, was passing from one car to another when the crash came, and he was hurled to the ground. He was badly but not fatally injured. There were a number of people in the day coach who sustained bruises and scratches, but none of them will suffer more than a temporary inconvenience. more than a temporary inconvenience. A VICTIM OF HYDROPHOBIA.

Walter Osborn, Who Was Bitten Five Weeks Ago, Died at Fort Scott Yesterday.

Fort Scott, Kas., Nov. 25 .- (Special.) Walter Osborn, a young man, 19 years of age, died at his home here this morning from hydrophobia, the result of being bitten by on receipt of gold so discharged was en-abled to add it to the gold reserve. How-ever, gold holders would prefer the gold certificates. Since the election and the thought no evil effects would result. Last Sunday he was taken ill and, although he craved water, the sight of it threw him into convulsions. A few minutes before he died, he overpowered three guards and got into the street, where his strength failed him and he was brought back to the house where he died almost immediately.

Stories Were Nothing but Fakes. Guthrie, O. T., Nov. 25.—(Special.) The sensational reports about prairie fires in Seminole country, with a long list of fatal-ities, are fakes of the worst kind. A dispatch from Wewoka, the Seminole capital, says that there have been no fires of any extent there, and nobody killed or injured.

A MAMMOTH STEEL SCHOONER. The Largest Ever Built on the Great Lakes, if Not in the United

States. Chicago, Nov. 25 .- Contracts for over \$3,000,000 worth of new vessels for the lake have been closed here since the election, and employment has been given to 3,500 men. Last week contracts were closed for two steamers and a large steel schooner in addition to the great steamer Crescent City, which will lead all lake craft in carrying capacity and general construc-

To-day the contract for still another vessel is announced. It will be for James Cerrigan, the prominent iron mining man of Cleveland, and his associates in the iron trade. The new boat will be the largest steel schooner ever built on the Great Lakes, if not in the United States. The dimensions will be: Keel, 376 feet; beam, 46 feet; depth, 25 feet. On present depth of water in lake channels the schooner will carry about 5,500 tons. With the completion of the twenty-foot channels, she will carry considerably in excess of 6,000 tons.

DOINGS IN THE LOCAL LODGE ROOMS.

5000000000 • 000000000 The seventeen lodges of the Knights of Pythias in Kansas City are co-operating in the Pythian charity entertainment to be given on the 16th of December at the Auditorium. Each lodge has a committee of four to represent it in all the arrangements. The committee met last evening at the rooms of Sicilian lodge and perfected all arrangements. The play will be given inder the direction of St. Clair Hurd, who has been connected with a number of clever local ventures. The first rehearsal ook place last evening, and everything is looking well. Arrangements are being made so that the entire receipts will go for charity and will be distributed through the mayor's charity fund.

Mrs. Higginbotham Resisted.

While Mrs. Higginbotham, the wife of a while Mrs. Higginoodam, the wile of a laborer at 259 Southwest boulevard, was washing yesterday at her home, a burly negro entered the house through the rear door and grasping the woman about the throat demanded her to give up her money. Mrs. Higginbotham, who is a large woman, told the negro that size had no money and told the negro that she had no money and that she knew of none in the house. She grappled with the brute who had every advantage of her, and was just making him loose his hold when he heard a man coming and ran through the back door. The police could not locate him.

Lawrence Schnebel Dead

Lawrence Schnebel, of 239 Summit street, the baker who was shot at 1 o'clock Tuesday morning, at Nineteenth street and Baltimore avenue, because he hurrahed for Bryan, died at the city hospital yesterday at 10 o'clock. The police still be-lieve they have in William Williams the man who shot Schnebel, although there are no new developments in the case. Williams will be arraigned to-day on a charge of murder.

There was an absence of life in this market yesterday. The run was good and so was the quality of the offerings, but as the markets east of us favored buyers, packers were backward, and a decline of 5c per cwt. was soon established. There was a big run yesterday and quality not so good. A slow market resulted from the increased supply, but all fleshy lots and the best class of feeders ruled steady and met with a fair demand. THE VENEZUELA COMMISSION. Some Doubt as to the Kind of a Report It Should Make to the

President. Washington, Nov. 25.-Justice Brewer, president of the Venezuelan commission, called on Secretary Olney at the state department to-day and later had a talk with Secretary Lamont. The call on Secretary Olney was for the purpose of going over 29... 942... 2 50 | the status of the Venezuelan question with a view of determining what nature of report the Venezuelan commission shall make to the president. The act creating the body contemplates a report to the president in time for his report to congress when it reassembles next many. The recent agreement for arbitration raises a question as to whether the report should go into the subject matter of the dispute. Mr. Olney explained the terms of the agreement and its bearing on the commis-

Whether a report should be made going into the merits of the controversy was no decided, but will be determined largely by the manner in which the agreement is re-ceived as conclusive. Both the United States and Great Britain have accepted it, but the position of Venezuela is yet to be made known. Minister Andrade and Mr. J. J. Ranchmen Will Be Compelled to Commence Breeding Again-Overcoat Thieves Hanging About the

Stock Yards.

J. C. McCoy, of McCoy Bros., is just back from Clarendon, Tex. He says he found cattle both scarce and high in the Panhandle. But few cows are being sold. and ranchmen are stocking up whenever they can get cattle, and they are reaching out into every quarter for them. It is thought the supply of cattle on the market from Texas next year will be shorter than ever, and it is evident that ranchmen must go to breeding again if they would stock up their ranches.

Overcoat thieves are still busy at the yards, but the last purloiner of winter warmth got neatly nabbed. James Troutman, a cattle salesman, yesterday morning while working in the yards hung his overcat on the signpost in block &. A strang. er was seen hanging about it and noticed by a number of cattlemen in the vicinity. Suspicioning that something was wrong they watched his maneuvers, he passed the coal once or twice and stopped to look at cattle in the pens. Presently he brushed against it and knocked it down on the plankway and left it as if by accident. He then goes down in the alley and enters the pen through the gate and creeps along the fence until he gets under the coat, when he slowly drags it to the ground. The stockmen that had been looking on immediately surrounded the pen and the "gentleman" was nabbed. He gave his name as William Beal. He was turned over to the police authorities and locked

Heavy cattle as well as medium weights, if smooth and well fatted, are now bring-ing as much money as lighter weights. Barney Cunningham, of Fostoria, Kas, was at the yards yesterday with twenty-five native steers that were both smooth and beefy. They were sold by Taylor, Taylor & Huston at \$155, the top of the market. Eastman got them for the export trade. The same firm sold for R. F. Mastin, of Belton, Mo., twenty-two choice fed Western steers, averaging 1,421 pounds,

at \$4.15. There were several lots of choice export steers in yesterday and they sold very well. Walter Jones, of Lebo, Kas., was here with twenty-one grade steers that averaged 1,402 pounds. They were smooth and well finished. They were sold by Jones Bros. at \$4.55, the highest price of the day, Eastman took them for the export trade

HIS PAST A BLANK. A Stranger in the Sedalia Hospital Whose Memory Has Entirely

Left Him. Sedalia, Mo., Nov. 25.-(Special.) A stranger, who has forgotten his past, has been an inmate of the city hospital here for the last three weeks and his case has puzzled all of the physicians who have visited him Where he came from, who he is and what exuela if the president and Mr. Oiney de-sire it. Some of the more material facts is the nature of his strange affliction are questions which the authorities would like to have answered. Three weeks ago, a man about 46 years of age, six feet tall, 200 pounds weight, eardy hair and mustache and well dressed applied to the police for shelter. He could not tell his name or former residence and his past life was a perfect blank to him. The man was sick and he was sent to the city hospital. There he said his name was Ben F. Smith and remembered that at some place he had been engaged in cutting timber. A day or two later Smith said he was a printer. By Fort Worth, Tex., but he cannot remember his brother's name or those of his Texas friends. He cannot tell his father's name, but says he was once superintendent of the Des Moines, Ia., public schools and a high degree Mason. Letters of inquiry have been sent to the towns mentioned, but the answer received is that Smith is unknown condition grows worse daily and the authorities are anxious to solve the mystery which envelops their strange charge.

IN A HYPNOTIC SLEEP.

Would Have Been Buried, but the St. Joseph Humane Society Interfered.

St. Joseph, Mo., Nov. 25,-(Special.) All unconscious of the interest he is creating. George West, of St. Joseph, lies in a coffin to-night. Yesterday afternoon, in the presence of an audience, DuPierre, the hypnotist, put West to sleep, from which he is instructed not to awake for sixty hours. It was the intention, after placing West in this condition, to bury him and keep him in a grave sixty hours. All arrange-ments had been made for the burial, but at the last moment the city humans society interfered and announced that the burial must not take place. Twenty-four students from Central Medical college, in relays of four, will be constantly on hand, and ev-ery half hour they will take the subject's temperature and his pulse. To-night both were nearly normal, and the subject appears to be sleeping soundly and prace-fully. The sleep thus induced, DuPierre says, is pleasant or painful, according to what is suggested to the subject at the out, set, and West had only the pleasantest of suggestions made to him.

As a Memorial to His Wife.
